Communication of 01.07.2011

ICS phase 1

According to EU guidelines, by 28th June it has been introduced, in **test environment**, new controls that reject ENS and RENS messages containing in the field "Goods description" generic terms that are not acceptable. The list of these generic terms, in Italian and English, is contained in the attached Community guidelines.

Following an alignment with the Community database, in the ENS, RENS and DIV messages cannot longer be used the following country codes:

- AX - Aland Islands;
- EH - Western Sahara;
- GF - French Guiana;
- GP - Guadeloupe;
- MC - Monaco;
- MQ - Martinique;
- PR - Puerto Rico;
- RE - Reunion;
- RS - Serbia;
- SJ - Svalbard.
