

Communication - 14th October 2011

ICS fase 1: Transmission of ENS for vehicles arriving in Greece as office of first entry into the EU

Taking into consideration the complete availability of the system ICS Greek, instructions published in the month of July regarding the lodge of ENS, related to means of transport that have a Greek office of first entry into the Community, at the office of Rivalta Scrivia, as if it is the office of first entry, **are no longer valid**.

Therefore these ENS must be sent directly to the Greek system (ICS).
