| "Functional<br>Error Code" | DESCRIPTION ERROR IN ENGLISH                                      |
|----------------------------|---|
| 14                         | EORI invalid  |
| 14                         | Office of registration code invalid                               |
| 14                         | Subsequent office code invalid                                    |
| 14                         | Code office with role inconsistent or not given                   |
| 12                         | Data incongruent  |
| 37                         | The field has an invalid format (not Numeric)                     |
| 14                         | Code mode of transport at border invalid                          |
| 14                         | Code nationality of means of transport at the border is not valid |
| 14                         | Code of Transport charges/ Method of Payment invalid              |
| 14                         | Language code is invalid  |
| 37                         | The field has an invalid format (not alphabetical)                |
| 40                         | The field shown has an invalid size (too short)                   |
| 12                         | LRN incongruent   |
| 12                         | Total articles inconsistent with the actual number calculated     |
| 12                         | Total packages inconsistent with the actual number calculated     |
| 12                         | Total gross mass inconsistent with the actual number calculated   |
| 14                         | Code indicator of special circumstances not valid                 |
| 14                         | Country code invalid  |
| 15                         | Required field missing  |
| 15                         | DataGroup necessarily absent                                      |
| 14                         | Dangerous goods code invalid                                      |
| 14                         | Document code invalid   |
| 14                         | Combined Nomenclature code invalid                                |
| 14                         | Kind of packages code invalid                                     |
| 12                         | The date indicated is not a valid format                          |
| 14                         | Special mentions code invalid                                     |
| 13                         | Required field missing  |

| 14 | First entry office code invalid                                    |
|----|--|
| 12 | The date indicated is incongruent (after than the system date)     |
| 12 | The date indicated is incongruent (prior than the system date)     |
| 12 | The indicated field has an invalid format                          |
| 12 | Item not found in declaration                                      |
| 92 | Operation is not allowed: the state of ENS is incongruent          |
| 92 | Operation is not allowed: the state of item-ENS is incongruent     |
| 12 | Value invalid  |
| 35 | Number of repetitions indicated inconsistencies with the number of |
|    | occurrences reported   |
| 13 | DataGroup mandatory absent   |
| 15 | Condition is not respected   |
| 15 | Rule is not respected  |
| 15 | Technical rule is is not respected                                 |
| 40 | The indicated field has an invalid size (too long)                 |

## Legend

**00000023<u>15</u>** - LRN+Functional Error Code (Number 8 + Number 2) **TESTATA o ARTICOLO** - Indication of the element in which the error was detected: Text (ENS) or ARTICLE (ENS1) **ARTICOLO\_1** - Display article in which the error was detected: ARTICLE\_1 ...

ARTICLE\_n

**TESTATA/S04 o ARTICOLO\_3/35** - Indication of the field (mapped through the column "Ref. FIELD" on the path to the message) that has been found

**C592:Campo obbligatorio assente** - Rule / Condition violated or wrong ID text field (10 characters max): text description of the error as indicated in the table shown

## Functional Error Codes (Specifiche tecniche di disegno DDNIA - Appendice C)

- 12 Incorrect (code) values
- 13 Missing
- 14 Value not supported in this position (code value constraint)
- 15 Not supported in this position
- 19 Invalid decimal notation
- 26 Duplicate detected
- 35 Too many repetitions
- 37 Invalid type characters
- 38 Missing digit in front of decimal sign
- 39 Element too long (length constraint)
- 40 Element too short (length constraint)
- 90 Unknown MRN
- 91 Duplicate MRN
- 92 Message out of sequence
- 93 Invalid MRN
